## COURSE DESCRIPTION

This comprehensive 8 day certificate course lays strong emphasis on orthopedic manual therapy to provide clinicians with intensive tuition to perform an accurate and specific manual therapy examination according to the patient's needs. We inculcate in the clinicians the art of subjective and physical examination from Manual Therapy point of view rather than spoon feeding the therapist with a dead-end protocol. We believe every patient is unique; the complaints are unique and should be assessed uniquely. The skill lies in your fingertips and we help you to exploit this talent!
